## ENGAGED.

Marriage is very largely an accident. In few cases do men or women set up a standard of manly or womanly excellence and choose by it. In most cases people become engaged as the result of propinquity rather than because of any deep rooted preference. And so it often happens that the wife enters upon the obligations of maternity just as thoughtlessly as she entered on the marriage relation, because no one has warned her of the dangers she faces.

Thousands of women become invalids for lack of knowledge of themselves. It is to this large body of women that Dr. Pierce's Favorite Prescription comes as a priceless boon, because it cures womanly ills.

"Favorite Prescription" establishes regularity, drives weakening drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"After my first child was born," writes Mrs. Jordan Smith, of Lawrenceburg, Kentucky, "I was very weak and my health was very poor for a long time, and I could hardly move without great suffering. My husband got me a bottle of Dr. Pierce's Favorite Prescription and a box of his Pleasant Pellets, which I used as directed. In four days I was greatly relieved, and now, after using the medicine three months, I seem to be entirely well. I can't see why it is that there are so many suffering women when there is such an easy way to be cured. I know your medicine are the best in the world."

Dr. Pierce's Pleasant Pellets the favorite family laxative. One "Pellet" a laxative, two "Pellets" a cathartic dose.

## TO THE DEMOCRACY OF THE 13th JUDICIAL DISTRICT.

I am a candidate for the democratic nomination for the judgeship of the 13th judicial district of Kentucky, composed of the counties of Boyle, Garrard, Lincoln and Mercer.

M. C. SAUFLEY.

In this issue Judge M. C. Saufley announces his candidacy to succeed himself as circuit judge of this, the 13th district, and if he gets anything like his just dues he will receive both the nomination and final election without opposition. A most excellent judge of law, a lawyer second to none in the State, as fair and just a man as ever honored the bench in this grand old Commonwealth, it would be a calamity not to keep him where he now is. While all people who love fairness and justice should want Judge Saufley to succeed himself, the democrats in particular should desire to see him honored again, for he has ever been one of them. In various times in democratic ranks Judge Saufley was as true as steel, always supporting democratic nominees both with his vote, voice and means. Nature has eminently fitted him for the high office he holds and his friends and democrats generally will see to it that he will again sit as judge in this district. We confidently believe he will have no opposition from his party and having licked the republicans several times, they will be foolish if they tackle him again. As long as Judge M. C. Saufley lives in this district and wants the office, we predict that just that long he will sit as circuit judge of Lincoln, Garrard, Boyle and Mercer counties. Success and long life to the best circuit judge in Kentucky.

The first session of the 57th Congress came to an end at 5:30 Tuesday afternoon. In the House there was a scene of general rejoicing, during which the members joined in singing the "Star Spangled Banner" and "Dixie." The Dixology was sung after Speaker Henderson had made a brief address. In the Senate the thanks of the body were tendered the Hon. William P. Frye, president pro tem., in a resolution offered by Mr. Cockrell. The session of the House lasted 7 1/2 hours, during which 70 bills and resolutions were passed. A good many good bills were passed while the number of bad ones are equally as numerous. On the whole, however, the half session was about up to the average.

The government's fiscal year closed with an available cash balance in the treasury larger than for many years, standing at the almost unprecedented figure of \$208,630,022. The excess of receipts over expenditures for the year is \$92,193,390, which is a larger treasury surplus than in any fiscal period since 1888. Only 10 times in the history of the government has the surplus been larger, and in nearly all of the cases the revenues had been swelled by extraordinary taxation imposed for the purpose of meeting the expenses of a war period.

In the Senate some hot words passed between Mr. Bailey and Mr. Beveridge over a resolution offered by the Texas Senator in regard to a Mexican mining case involving the interests of an American citizen. Mr. Bailey criticized the State department and other officials and Mr. Beveridge denounced his statements as an "unwarranted attack." After adjournment Mr. Bailey demanded a retraction and subsequently made a personal assault on the Indiana Senator. Other Senators interfered and stopped the hostilities.

The democrats of Pennsylvania have nominated Robt. E. Patterson for governor again. He has filled the office twice and it appears to be the impression in both parties in Pennsylvania that the democrats have played their best card to putting him forward again. Although the republicans have been much rent by factions, the hope of democratic success this year is not as great as it was when Patterson ran on previous occasions. Patterson is a fighter and may succeed in beating Quay's man.

WITHOUT any thought of making a record, a commercial traveler of Chicago has just completed a journey from Paris to his native city in less than seven days. The distance covered was one-fifth the circumference of the earth, and the achievement foreshadows the possibility of a trip around the world in five weeks when the speed possibilities of the lines of steam communication now almost completed shall have been fully developed.

THE midsummer payment of interest and dividends in New York July 1, amounted to about \$125,000,000 being the largest ever paid at this time of the year. John D. Rockefeller was the chief beneficiary, his share being about \$2,200,000. W. K. Vanderbilt came next with about \$1,100,000. The Standard Oil Company had already paid its dividend. This amounted to \$10,000,000 and Mr. Rockefeller's part was \$4,030,000.

A LEBANON dispatch says that two young men have been going through Marion county soliciting subscriptions to help defray the expenses of Hon. Vincent Borelog, who is making the race for Congress in the 11th district. The young men are evidently frauds. Mr. Borelog is said to be worth at least \$100,000 and he doesn't have to resort to such methods to carry on his campaign.

THE Georgia Commission empowered to name two Georgians to be honored by statues in the Hall of Fame, paid the highest possible compliment to Gen. John B. Gordon, commander-in-chief of the United Confederate Veterans. Since the commission could not name a living man they decided to wait until Gen. Gordon's death and then name him.

## IN NEIGHBORING COUNTIES.

James Caldwell, a Mercer county farmer, was killed by lightning.

The Whitley Oil Co. struck a stream of oil at the depth of 450 feet near Williamsburg.

Orr Evans, a 14-year-old boy, shot and killed himself by accident in Whitley county.

Matthew England, aged 75 and quite deaf, was run over and killed by passenger train No. 4 on the Q & C. near Burgin Wednesday.

At Lexington, Dolph Bailey, a Negro, cut and dangerously wounded Deputy Workhouse Keeper Conley, of Danville, who was trying to arrest him.

A "gusher," believed to be the biggest in Kentucky, was struck on the Hammone farm on Richland creek in Knox county. The oil gushed to height of 160 feet.

If paragraph 31, sub-division 3, of article 10 of the new revenue law is enforced, it will run out of Kentucky the street fair shows and trained animal exhibitions which go from town to town.

Near Jarvis' store, Knox county, a man named Pruitt was shot and dangerously wounded while resisting a search warrant. He had been charged with complicity in the robbery of J. R. Bailey's store.

Wage Well No. 7, of the Atlantic and Pacific Oil Company, came in on Richland Tuesday at a depth of 150 feet. It is a fine producer, and being at such a distance from the other Wage wells, greatly extends that field. Not a dry hole has been drilled on the Wage farm.

In Mercer county, Geo. Elliott, aged 65, hanged himself in his barn with a plow line after his wife had been mysteriously and probably fatally hurt while the couple were driving to the residence of a neighbor. Elliott told friends that his wife had been kicked by a horse and after making that statement, drove home and hanged himself.

A. O. Stanley, John B. Brasher and E. P. Taylor qualified for the Second district Congressional primary by paying \$500.00 each to the democratic committee.

The following gentlemen make up the race for the nomination for railroad commissioner in this district: W. P. Walton, Lexington; C. C. McChord, Springfield; T. Elter Crockett, Frankfort; M. R. Downs, Carrollton; and Allen E. Smith, Louisville. The entries closed yesterday.

Just before the Senate adjournment, Senator Allison presented a statement showing from his standpoint, that the total appropriations for the session were \$900,193,847. Pensions led with \$139,842,230, and postoffices are next with \$138,416,598. The total list last year was \$730,338,575. Representative Livingston, in the House, stated that Senator Allison's total should be increased \$295,373,215 to include contracts authorized to be entered into. This aggregate would be \$1,059,577,052.

## About The Bond Issue.

MR. EDITOR:

The board of trustees of the Stanford Graded School on July 2 received and made answer to an offer of compromise from opponents of the bond issue which communication and answer thereto the board of trustees request that you publish to the people of the district.

STANFORD, KY., July 2, 1902.—J. H. Baughman, J. B. Paxton, S. H. Baughman, Jno. B. Owsley, J. S. Hocker, committee.

This afternoon you gave to a member of the board of trustees of the Stanford Graded School for presentation to the board, the following offer of settlement of the question of bond issue for the purpose of building and equipping a school building for the district.

To the trustees of the Stanford Graded School District:

The undersigned committee representing those who have heretofore opposed the issue of bonds are authorized to and do make the following proposition: If the trustees will call an election to authorize them to issue not exceeding \$5,000 in bonds payable in 10 years from date, there will be no opposition to the proposition in the election. J. H. Baughman, J. B. Paxton, S. H. Baughman, Jno. B. Owsley, J. S. Hocker, committee. July 2, 1902.

Having for months had the needs of the district under consideration, and having made careful estimates of the cost of building and equipping a house commensurate with the demands of the district, we are satisfied, beyond all question, that the sum of \$5,000, suggested by you, is entirely inadequate.

After a careful consideration of the matter, abridgement of the proposed building and curtailment of conveniences, the sum of \$7,000 was unanimously agreed by the board to be the limit of reduction.

The question has been twice submitted, and while a most pronounced majority have voted in favor of the issue of a larger bonded debt than the one now proposed, yet the requisite two-thirds majority has not been secured.

Your communication is the first offer of settlement of any kind to the board from the people who have opposed the bond issue.

As the mere servants of the district, with no personal ends to accomplish and with no personal preferences that can be subordinated to the welfare of the 300 school children of the district, we are glad to be given the opportunity to avail ourselves of some means of affording the children the advantages of the school which our taxpayers have so generously voted them.

To this end we offer you this counter proposition: Your offer of compromise comes too late for any alteration in the call of the election. To postpone the election would simply delay the building, when the building season is now half over.

If you gentlemen of the committee, together with 25 of the men whom you represent, will, in writing, signify to us your acceptance of the proposition not later than July 5, 1902, and evidence your sincerity by the withdrawal of your opposition and by your votes in favor of the bond issue at the election on July 12, we assure you in our official capacity and upon our personal honor that we will limit the issue of the bonds voted, to the sum of six thousand dollars (\$6,000) and make such further alterations in the proposed building as this reduction will necessitate. By order of board of trustees. W. B. O'Bannon, Will N. Craig, Geo. L. Penny, J. N. Saunders, trustees.

AT Langford, Rockcastle county, Morgan Burke was shot and instantly killed by Millard Farthing. The trouble was over a woman. Farthing had been ordered by Burke to leave the county. He and a brother went to a quarry where Farthing was at work and made an attack. Burke leaves a wife and five children. Farthing is from Woodford. He surrendered.

THE circular writer for the bond people should and must confine himself to facts when he quotes this paper. Here is what we printed concerning the proposition: "There is hope that those who oppose and those who favor leasing bonds to erect a graded school building will get together ere many moons wax and wane. The only have submitted a proposition which we are told will more than likely be accepted." Here is what was published in the circular and as the editor has voted against the bond issue we naturally suppose the scribe refers to the INTERIOR JOURNAL. "A local newspaper published last week a statement that the opponents to the school building had made a fair and satisfactory offer to the board of trustees in the nature of a compromise. The purpose of the publication, of course, was to create the impression that the former gentlemen were desirous of doing the proper and liberal thing, and that if there should be a failure of result the fault would lie with us. The answer is that the publication is false. No offer of any kind has been made to the board. A pretended offer of what they were pleased to call a compromise, in writing but unsigned and unvouched for, was made to two individual members of the board, who expressly disclaimed any authority to act in the matter, but the offer was so childishly absurd and so wholly impracticable, to say nothing of its obvious insincerity, that it was not even reported to the board. Besides, we know of no authority in us to compromise or to barter away, or to discount or shave to a banking corporation, or to two of them, the right or the privileges of the people." There are no adjectives used concerning the proposition submitted, as will be seen from our clipping reproduced above.—In fact we did not know what the proposition was. A truthful gentleman, who has each time voted for the bond issue, was our informant that a proposition had been made and would likely be accepted, and anxious to see the matter settled we wrote the above, believing it news that both the pros and cons in the matter would like to hear. The charge that the object of the paragraph was to create the impression stated in the circular is as false as it is unfounded.

THE allowing of a few claims was the extent of the business done by the city council last night.

LADIES, our stock of fine oxfords and slippers at a reduction of 10 per cent., are a genuine bargain. Severance & Sons.

McCoy & Shannon's circus, advertised for Stanford yesterday, gave us the go-by. They owed several bills in town which the creditors are endeavoring to collect. They show at Lebanon today.

THE statements of Stanford's two banks, the National Bank of Hustonville, the First State Bank, of Junction City, and the Commercial Bank of Liberty appear elsewhere. They are all first-class. Read them.

YESTERDAY was a hot one and today promises to be hotter. At Livingston yesterday thermometers registered 104. Ninety-eight was the highest mark reached here. At 7 o'clock this morning the thermometer registered 85.

THE anti-bond men proposed to the Graded School Trustees that if they would call a new election for a \$5,000 bond issue, payable to 10 years, they would not oppose it. The Trustees, by way of a counter proposition, agreed not to issue exceeding \$5,000 in bonds in the event that the election called for the 12th results in their favor. The anti-bond men declined to accept this proposition, but agreed that if the trustees would call a new election for not exceeding \$5,000, payable in 10 years, they would not oppose. The trustees were given until tomorrow to consider this offer.

THE beautiful residence of Dr. L. B. Cooke was thrown open to the young people of the Tennis Club last evening when they were charmingly entertained by the fair hostesses, Misses Anna Cooke and Myrtle Abrams. The house was elegantly decorated with plants, ferns and cut flowers. About 60 young people were present. Miss Cooke received in a handsome gown of green silk tissue and Miss Abrams in white organdie. Refreshments were served in the spacious dining rooms, the colors being pink and white. The visitors present were Misses M. Kay Salles, of Harrodsburg; Florence Burnside, of Paint Lick; Fannie Doty, of Lancaster; Jean Warren, of Danville, and several others. Miss Abrams rendered snatches of the most popular songs and the prize for guessing the names of the greatest number was awarded to Miss Virginia Warren and the prize for guessing the least, the booby, to James T. Menefee. The grounds were illuminated with Japanese lanterns, one corner being reserved for the Gypsy camp, where a Gypsy read the fortunes of the gay throng. One corner of the hall was reserved for Miss Virginia Bourne, who presided over the bowl, where frappe was served to the thirsty.
